

## Limerick Dragons COVID-19 Statement

Limerick Dragons is committed to the safety and well-being of its members. COVID-19 has thrown chaos into everyone's lives, but we are now hopefully on the path to recovery and the gradual return to our loved ones and the things we all love doing with them.

At all times Limerick Dragons will follow the guidelines as set out by the Irish Government. In addition, Limerick Dragons will also adopt the safety policies and procedures of the Irish Dragon Boat Association in relation to returning to dragon boat paddling in a COVID-19 environment.

As the situation with COVID-19 is ever-changing the Committee of Limerick Dragons, in consultation with our Safety Officer, will review the guidelines on an on-going basis and advise the members of our updated guidelines as we undertake a return to activities over the coming months.

Please be aware that as this is an ever-changing situation Limerick Dragons cannot be held responsible for any changes to planned exercise activities at short notice, including but not limited to walking activities, kayaking and dragon boat paddling.

We trust that you the members understand and appreciate that this is a matter that is outside the control of the Committee and we must be in line with all government guidelines.
